

The earth's HEALING ELEMENTS right in your living room.

Where heat, waves, weightlessness and beauty come together lies tranquility—The Perfect Chair® Tranquility®, to be exact. We've seamlessly integrated earth's natural elements and the healing arts of the Far East into an amazingly luxurious chair that soothes tired, aching muscles, elevating the body to a new state of comfort and relaxation.

Inspired by the Neutral Body Posture chaise position developed by NASA to support astronauts' ascent into orbit, the Perfect Chair's frame ergonomics put the body in a virtually weightless position that physicians recommend as the healthiest way to sit. Within the chair lies an equally stunning advancement—jade stones that radiate far-infrared heat up to three inches deep into muscle tissue to create healing warmth that can be felt long after you leave the chair. Add to that full-body, Tranquility Wave Therapy technology and you've reached the perfect bliss. Or, Tranquility, as we call it.

Strategically positioned jade stones and air cells provide targeted full-body relief.
