Robotic Massage® Chair

Looks great in any room. Feels great anytime.

It's hard enough to find an affordable chair that fits your décor perfectly, let alone one that beautifully melts away muscle pain and stress with the press of a button. Introducing the Human Touch® 5040 Robotic Massage® chair. Designed to look as great as it makes you feel, this amazing chair features many of our top massage functions in one stunning package.

With a designer base, luxurious Performance PU that cushions the base of the neck and shoulders, and aggressive contrast stitching, the 5040's contemporary design complements any style. Take a seat in the supple upholstered chair and indulge in any of three invigorating pre-programmed massages which expertly incorporate the four techniques used by back and spinal care professionals. Focus the quad-roller massage where you need it most, for targeted relief from your neck down to your lower back. Add the foot-and-calf massage for refreshing full-body therapy or decompress the spine with a full-body stretch. Now you can enjoy an effective, targeted head-to-toe massage in a chair designed to look and perform head and shoulders above the rest.

More Features for More Comfort

MASSAGE CONTROLLER – It's all at your fingertips

- 5-Year Limited Warranty

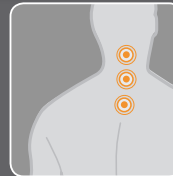

Style that will make you smile.

The 5040 Robotic Massage® chair incorporates some of Human Touch's most advanced massage features in a newly designed form that makes a beautiful addition to any room and style.

DEEP-WELL FOOT & CALF MASSAGER

Massaging calves in an upward, rolling motion, the rotating, multi-speed unit forces blood away from the feet toward the body's core, allowing fresh, nutrient-rich blood to re-enter the calves and feet for healing and soothing comfort. Only Human Touch offers this patented true robotic technology.

PENETRATING NECK MASSAGE

Simply removing the head pillow reveals an intelligently placed soft window that enables the 5040 Robotic Massage® chair's advanced massage system to provide a closer, more intense neck massage.

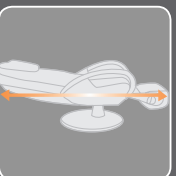

ROBUST DESIGN

Rich Performance PU upholstery in designer colors, contrast stitching, a metallic paint-finished accent, squared tailoring and a robustly designed form give the 5040 Robotic Massage® chair a substantial, indulgent look and feel.

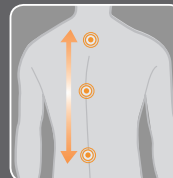

COMFORTABLE ACCENTS

A broad, ergonomically designed headrest edge trimmed with SofSuede® provides a comfortable touch to the base of the neck and along the shoulders.

FULL-BODY STRETCHING

As the foot-and-calf massage wells gently hold your legs, the 5040 Robotic Massage® chair slowly reclines, stretching the spine to increase blood flow to the vertebrae and discs, effectively rejuvenating the lower back.

3 INVIGORATING MASSAGE PROGRAMS

Choose from three massage programs and find the one that best suits your needs at the moment. You can select from the following options: Sore Muscle Relief, Stress Therapy or Back Wellness.
