Remote Control User Guide

iJoy® Active 2.0

- **PARK** – Stops the massage and parks the massage rollers at the top of the backrest.
- **STOP** – Immediately stops the massage.
- **ACTIVATE** – Choose from three auto-programs to target your upper, lower, or entire back.
- **TARGET** – The Stretch and Orbit techniques target one area of the back and can be redirected using the position buttons. The Glide technique massages along the spine, and can be used simultaneously with the Stretch or Orbit techniques if desired.

**WIDTH** – Focus or diffuse massage pressure during a Glide massage. Select the width setting after selecting Glide.

**POSITION** – Adjusts the up and down position of the FlexGlide massage robot.
