the DREAMER

At Human Touch®, our vision was to create a chair so extraordinary, it would deserve to be called the Perfect Chair®.

Inspired by this vision, David Potter, our Vice President of Design, charted a course to turn this dream into reality. By skillfully blending contemporary architecture with old-world craftsmanship, he laid the foundation for the chair’s bold yet classic look. We then integrated our unique zero-gravity technology to create a complete seating concept that transcends common comfort. The result is a chair that uniquely and beautifully combines form and function—perfectly.

“When given the opportunity to design a ‘perfect chair,’ I knew my fundamental approach must be based upon classically designed seating that reveals human proportion,” says Potter. “These are basic, innate visual cues that subconsciously tell us whether a chair will be comfortable or not. Get the human proportions right, the aesthetics and comfort are quick to follow. Wrap it all up in sumptuous materials and meld them with the finest, unyielding steel and the result is: the Perfect Chair.”

the DREAM

With the discipline and wisdom that can only come from years of experience, we carefully researched and selected each component to move our vision into action. All materials are polished, matched or finished to obtain the highest level of luster and brilliance. Aesthetically and technically, the Perfect Chair reflects Human Touch’s commitment to creating products of superior quality and value.

AEROSPACE SCIENCE and ergonomics

Not by coincidence, the Perfect Chair’s body-frame ergonomics are inspired by the neutral-body-posture chaise position developed by NASA to support astronauts during their ascent into orbit. Modified for use in stationary applications and incorporating our multi-patented technology, the Perfect Chair body frame is designed to provide years of comfort and can accommodate individuals weighing up to 285 lbs.

NATURAL materials

Solid wood. Premium upholstery. Nickel-plated steel. We chose some of nature’s purest elements and refined each to work in harmony. Our materials are carefully selected, then polished, matched or finished to obtain the highest level of luster and brilliance.

ENVIRONMENT friendly

We proudly craft the Perfect Chair using a harmonious manufacturing process that replenishes the planet with new resources to replace the ones we use.
Hevea Brasiliensis (the rubber tree) yields one of the strongest woods on earth, which is one reason we selected it to produce our solid Parawood base. In a 42-day process, the tree’s trunks are cleaned, trimmed and milled to produce individual boards that are the foundation of the Perfect Chair’s uniquely shaped legs. Only the very thick lower three feet of the trunk are uniform enough for the Perfect Chair’s production. Each of our artisans must serve a two-year apprenticeship before they are allowed to craft the uniquely balanced curve that supports a Perfect Chair.

Once cut to the proper length, the boards are kiln-dried and laminated to ensure the proper thickness, then our expert woodsmiths hand-carve and hand-sand each leg pattern until the perfect shape is achieved. The wood is then sanded, rubbed, stained and polished, all by hand, to bring out the wood’s natural grain and beauty.

Finally, the wood is coated with multiple layers of lacquer for protection and to further illuminate its elegant design. The result – rich, lustrous beauty that lasts for years and years.

The legs of all Human Touch Perfect Chairs are constructed of 100-percent solid, plantation-grown Parawood from the rubber tree (Hevea Brasiliensis). This extremely strong, yet flexible, deciduous wood is prized as being fully renewable and eco-friendly. Unlike other woods that are cut down for the production of products like furniture, Parawood is used only after it completes its 25-year rubber-producing cycle.

Perfect Chair cushions are expertly crafted in premium leather, bonded leather and SoftSuede®, in a variety of designer colors and textures. Only five percent of the world’s natural, uncorrected cowhides are sufficiently free of imperfections to qualify for use as Human Touch premium leather. Top-grain and aniline-dyed hides from the United States and Brazil are carefully measured, cut and sewn all under one roof. This is what makes the supple leather luxurious, resilient and so soft to the touch.

Our bonded leather offers luxury, durability and great comfort to our premium leather. Crafted using a combination of man-made materials and genuine leather, you’ll love this beautiful alternative’s natural comfort, flexibility and durability.

Our patented SoftSuede® is a man-made fabric created using the most delicate fibers that are light enough to create a shiny fabric that has many of the same qualities as suede leather. Naturally water- and stain-resistant, its plush, velvety surface is breathable and designed to look like new for years to come.

Beautiful French triple-stitch detailing graces the upholstery of all of our Perfect Chairs, reflecting the quality, time and dedication we invest in each and every pad set. No matter which Perfect Chair you choose, the supple materials with rich, inviting hues will conform against your body and attractively accentuate any décor.

The Human Touch Perfect Chair delivers all this and more. How perfect.
NEUTRAL POSTURE
Beautifully blending aesthetics, technology and wellness in seating, the Perfect Chair elevates the legs above the heart, relieving weight from the spine. In this zero-gravity position, the body relaxes into a virtually weightless posture, which physicians recommend as the healthiest way to sit. The chair's fixed-form seating position ensures maximum ergonomic posture at all recline angles, effectively alleviating soreness, tension and fatigue caused by the earth's constant gravitational pull.

DEFY GRAVITY™
The zero-gravity Perfect Chair is a unique balance of back support and seating comfort. Sit back, relax, and then take the weight of the world off your back. With a simple lever adjustment, the chair can recline and expand in ways that fuse form and function - providing a truly weightless experience.

BENEFITS
- Relaxes and rejuvenates the spine by naturally decompressing the vertebrae
- Relieves muscle tension, soreness and fatigue
- Elevates legs above the heart, helping to improve blood flow
- Helps expand lung capacity, allowing for deeper, more relaxed breathing
- Improves circulation and blood-oxygen levels

ERGONOMICS
Articulating headrest cushion allows you to customize the angle of comfort for your head and neck
- Neck-contoured comfort pillow cradles the neck to ease tight muscles and provide ultimate relaxation
- Removable headrest cushion allows you to customize the angle of comfort for your head and neck
- Self-inflating lumbar pillow supports the lower back, alleviating tension and pain
- Ergonomically positioned recline lever makes it easy to adjust the chair into your desired position
- Hand-carved, hand-finished base is constructed for years of use and is pleasing to the eye
- Extra-wide leg rest provides maximum comfort for people of all sizes
- Exclusive glide rail system ensures smooth recline motion

COMFORT
- Zero-gravity position cradles your back and elevates your legs above your heart, the position doctors recommend as the healthiest way to sit. Gravity doesn't stand in the way of easily getting in and out of this remarkable chair with its extended range of motion.
Choose manual or power recline—either way, a perfect recline angle makes you feel weightless.

**Classic Manual Recline**

A chair that is simply brilliant and effective. Escaping gravity’s adverse effects is as easy as leaning back. Once you find your perfect position, feel the stress and tension melt away as your muscles and joints get a much-needed rest from earth’s constant gravitational pull. With several finishes to choose from, your Perfect Chair will fit your wellness regimen and décor—perfectly.

**Classic Power Recline**

With the easy push of the recline lever, the Perfect Chair gently moves you into a full-recline position that makes you feel as though you’re floating on air. Equally valuable, you can effortlessly return to the upright position without stress or strain, a feature back pain sufferers really appreciate. The electric recline system is so precise that you can set the chair in the absolute, perfect position... for you.

This chair is the perfect blend of beauty, ergonomics, comfort and wellness benefits. Just pick your favorite designer-wood finish and fashionable upholstery, then enjoy the perfect seating experience in the Perfect Chair.
the Perfect Chair®
Silhouette

Sleek lines, tapered design, the perfect choice for those smaller in stature.

Offering the same wellness, quality and comfort advantages as the Perfect Chair Classic series, the Perfect Chair Silhouette features a slimmer frame. With its sleek lines and tapered design, this elegant chair is the perfect choice for those smaller in stature, comfortably raising the feet above the heart, removing pressure from the spine, and inviting absolute surrender to deep relaxation.

- Easy-to-use power recline system allows precise position control
- Articulating headrest allows you to customize the angle for maximum head and neck comfort
- Exclusive glide rail system ensures smooth recline
- Luxurious upholstery is exceptionally comfortable, durable and fits any décor beautifully

The electric recline system is activated by an easily reachable fingertip control. Whisper-quiet motors take the chair from upright to full recline in less than 15 seconds.
Because people come in different shapes and sizes, so do our Perfect Chair® Zero-Gravity recliners. Their design suits many different body types, large or small. So whether you’re petite, towering, or somewhere in between, you’ll find a chair that fits your body and décor perfectly.

The Perfect Chair Transitional recliner is our most generously padded zero-gravity chair. It's intelligently designed to ensure a neutral-posture seating position and maximum ergonomic posture at all recline angles, consistent with physician-recommended sitting posture. Its clean lines ensure this chair is at home anywhere in your home.

**ELECTRIC RECLINE SYSTEM**
A smooth-functioning, high-performance recline system with whisper-quiet motors eases the chair from upright to full recline, allowing you to control your journey from sitting to floating with an unobtrusive, easy-to-use fingertip recline lever.

- Generous bonded leather cushions for a soft touch and furniture springs for superior comfort seating.

health and wellness

- increase wellness
- enjoy deeper, more restorative sleep
- relieve back pain and sore muscles
- relax and reduce stress
- improve circulation and blood flow
Bringing the healing arts of the Far East to your living room, the Perfect Chair® Serenity® modernizes ancient techniques and fundamental earth elements to deliver amazing wellness benefits. Beneath its luxurious exterior, the Serenity chair features jade stones, radiating far-infrared heat and gentle-wave massage technology that soothes tired, aching muscles, elevating the body to a new state of comfort and relaxation.

- Jade stones naturally transmit far-infrared heat, both of which have therapeutic properties studied in the Far East for thousands of years.
- Delivers penetrating heat up to three inches deep to create a healing warmth that can be felt for up to one hour and up to three inches below the skin’s surface.
- Far-infrared heat is clinically proven to reduce lower back pain and relieve chronic pain.
- Full-body heated massage reduces inflammation and relieves joint and muscle pain.
- Increases flexibility, reduces stress and fatigue, and promotes a deep, restful sleep.

The Serenity chair’s strategically positioned jade stones and air cells provide targeted full-body relief.

To own it is to love it.

“I used to think the Human Touch team has the incredible, ergonomic Perfect Chair design that puts the spine in a comfortable recline at every angle. It is the most perfectly designed and engineered chair that I have experienced.”

– Dr. Jon Stucky, Doctor of Chiropractic, CCST, FICA

“After a long day of work, there is nothing better than collapsing into my Perfect Chair. I can absolutely feel my spine decompressing and stress washing away. It’s amazing. I am in love!”

– Jaime Tam, Ethnic-Fusion Dancer and Yoga Instructor

“...the rescue phase...you feel all the pressure come off your back. You can feel your entire body tone up. Neck and back pain are no problem...you don’t even notice when you are in your Perfect Chair...all the pressure is in the chair.”

– Tim Clark, PGA Golfer

“The Human Touch Perfect Chair is the best chair on the market and the one we use in our research. It is a sophisticated approach to providing heating and massage.”

– Dr. Jeffrey Thompson, Founder and Director of the Center for Neuroacoustic Research

“I want to thank the Human Touch team for its incredible, ergonomic Perfect Chair design that puts the spine in a comfortable recline at every angle. It is the most perfectly designed and engineered chair that I have experienced.”

– Dr. Jon Stucky, Doctor of Chiropractic, CCST, FICA

“Our two-level, suspended spanner wedge table connects directly between two Perfect Chairs® allowing you to create your own unique home theater ensemble. Use wedge tables to connect a group of chairs in a graceful arc.

Fits PC-6, PC-075 and PC-095 models only.

Available in Maple, Walnut and Dark Walnut finish.

Memory Foam Pad Insert

The Perfect Chair evenly distributes your body weight to eliminate all pressure points. Add the visco-elastic memory foam pad insert for an added layer of comfort that perfectly matches you and your chair.

Fits PC-6, PC-075 and PC-095 models only.

Extendable Footrest

Extend the comfort to the tips of your toes with an extendable footrest that retracts neatly when not in use. This is a perfect solution for someone who is 6’2” or taller. Only available for the PC-6 model. Adds an additional 7” to the PC-6 chair length.

Laptop Desk

Designed to secure your laptop, iPad®, book or papers in a place so the perfect height for maximum productivity.

Fits PC-5, PC-095 and PC-095-E models only.

Spanner Wedge Table

Our two-level, suspended spanner wedge table connects directly between two Perfect Chairs® allowing you to create your own unique home theater ensemble. Use wedge tables to connect a group of chairs in a graceful arc.

Fits PC-6, PC-075 and PC-095 models only.

Available in Maple, Walnut and Dark Walnut finish.

Accessories Table

This accessory table is the perfect height for a finishing touch to your Perfect Chair—front and back. It’s a beautiful, practical addition to your chair in coordination with its back rest.

Fits PC-5, PC-095 and PC-095-E models only

Available in Maple, Walnut and Dark Walnut finish.
