S and L TRACK SYSTEM

While the **L-Track** extends high performance coverage from the neck and shoulders all the way down to the glutes and thighs, the **S-Track** closely follows the curvature of the spine. The result is a massage that is designed to move with the natural curves of the body for optimal results.

AUTO-WELLNESS PROGRAMS

Enjoy 3 programs to help you **Recover**, **Perform**, and feel **Energized**—all mapped for maximum effectiveness using our **AcuPoint® Body Sensing** technology.

FLEX 3D MASSAGE TECHNOLOGY

The five intensity settings allow for an adjustable massage that provides a therapeutic, fully-enveloping experience with just the right pressure.

CLOUD TOUCH ACUPRESSURE

Strategically placed, targeted aircells apply pressure to key healing points and manipulate the body to stretch muscles.

DEFY GRAVITY®

The zero gravity position cradles the back and elevates the legs above your heart, the position doctors recommend as the healthiest way to sit.

DUAL-LUMBAR HEAT

Adjustable and targeted heat gently soothes the back to loosen tight muscles and help relieve pain.

BUILT-IN USB PORT

Use the built-in USB port to charge a hand-held device while sitting in the chair.

SPACE SAVING DESIGN

The Novo XT PRO requires only 2" of wall clearance in order to pivot seamlessly from the upright to reclined position.

FULL-BODY STRETCH

Our expansive "bend and stretch" functionality provides unprecedented leg and spine relief, increasing blood flow to the vertebrae and discs and rejuvenating the lower back, allowing for recovery with greater efficiency.

EXTENDING FOOT AND CALF MASSAGER

With under foot rollers for optimized reflexology and adjustable intensity for calves and feet, the extendable leg rest automatically adjusts for height. Special Edition with calf massage only also available.

ADVANCED TILE REMOTE

Easily manage the chair's full suite of programs and features using the intuitive navigation control, featuring a crystal-clear LCD screen and a rubber controller cover for easy cleaning.
