

RELAXATION, IN FULL SWING

CIRQLATION® | Patented Figure-Eight Technology®

The Human Touch® Reflex SWING Pro Foot, Calf and Thigh Massager is the perfect bridge between state-of-the-art CirQlation® and Figure-Eight® Technologies and the ancient healing art of massage, emulating the same techniques used by massage professionals. Massaging the calves in an upward, rolling or wave-like motion, the Figure-Eight movement caresses sore calves and rejuvenates tired feet to elevate relaxation by forcing blood away from the feet and toward the core of the body, improving circulation. The Reflex SWING Pro incorporates reflexology that benefits and improves general health, relieving stress and pain in many other parts of the body, but it doesn't stop there!

The Reflex SWING Pro moves to massage all the way up to the thighs. Add patented Warm Air Technology and underfoot vibration, and you have a massage experience unlike any other.

EXTENDED HEIGHT for
maximized massage coverage

MASSAGE COMFORT

Easily set **massage intensity** to fit your needs. Comfort control is right on the Control Console

ONBOARD CONTROL

3 auto-massage programs
2 vibration speeds
