Remote Control User Guide

FRONT

(3D)

Where do you want to feel better?

AUTO IMMERSION PROGRAMS

- Four unique auto immersion programs automatically massage you for 15 minutes, using a variety of massage modes.

GO TO ZERO (ONE-STEP PRESS AND HOLD) - Fully

reclines the backrest and raises the footrest, placing your body in a neutral-posture position.

TARGETED MUSCLE BENEFITS

- Four massage modes let you customize your massage.

INTENSITY 3D – Set the upper and lower back 3D massage intensity independently to soft (I), medium (II), or intense (III).

POSTURE – Adjust the chair to a comfortable position.

BODYMAP® PRO - Push the button that corresponds to the area where you want to feel better, and let the massage chair do the rest!

CALF – Press to toggle through two fixed calf massage speeds and an auto massage program.

FOOT – Press to toggle through two fixed foot massage speeds and an auto massage program.

RANGE – Choose from seven settings to personalize your vertical massage range.

WIDTH – Focus or diffuse massage pressure by selecting the wide, medium, or narrow setting. This feature works with Flex and Ease massage modes. Select the width setting after selecting a massage mode.

BACK WARM AIR – Activates the warm air lumbar heat. NOTE: After deactivating the heat, the LED turns off but the fan continues to run to cool down the heater. This is normal.

VIBRATION – Activates the foot vibration.

STOP/PARK/RESTORE -

Press and hold to retract the footrest and return the chair to the upright position.

ZONE – Targets your massage to a six-inch zone. Use the Position buttons to focus your massage on the desired area.

POSITION – Use this button, along with any stationary massage mode, to set the massage head to the desired position on the backrest.

AIR SEAT MASSAGE — Activates the unique seat massage, which uses two rows of rapidly inflating/deflating air cells and a layer of Visco foam to create a precision seat massage.

For more detailed operation instructions, please see the Use and Care Manual.
